PROJECT NAME

**CONTAINMENT ZONE
ALERTING
APPLICATION**

PROJECT DESCRIPTION :

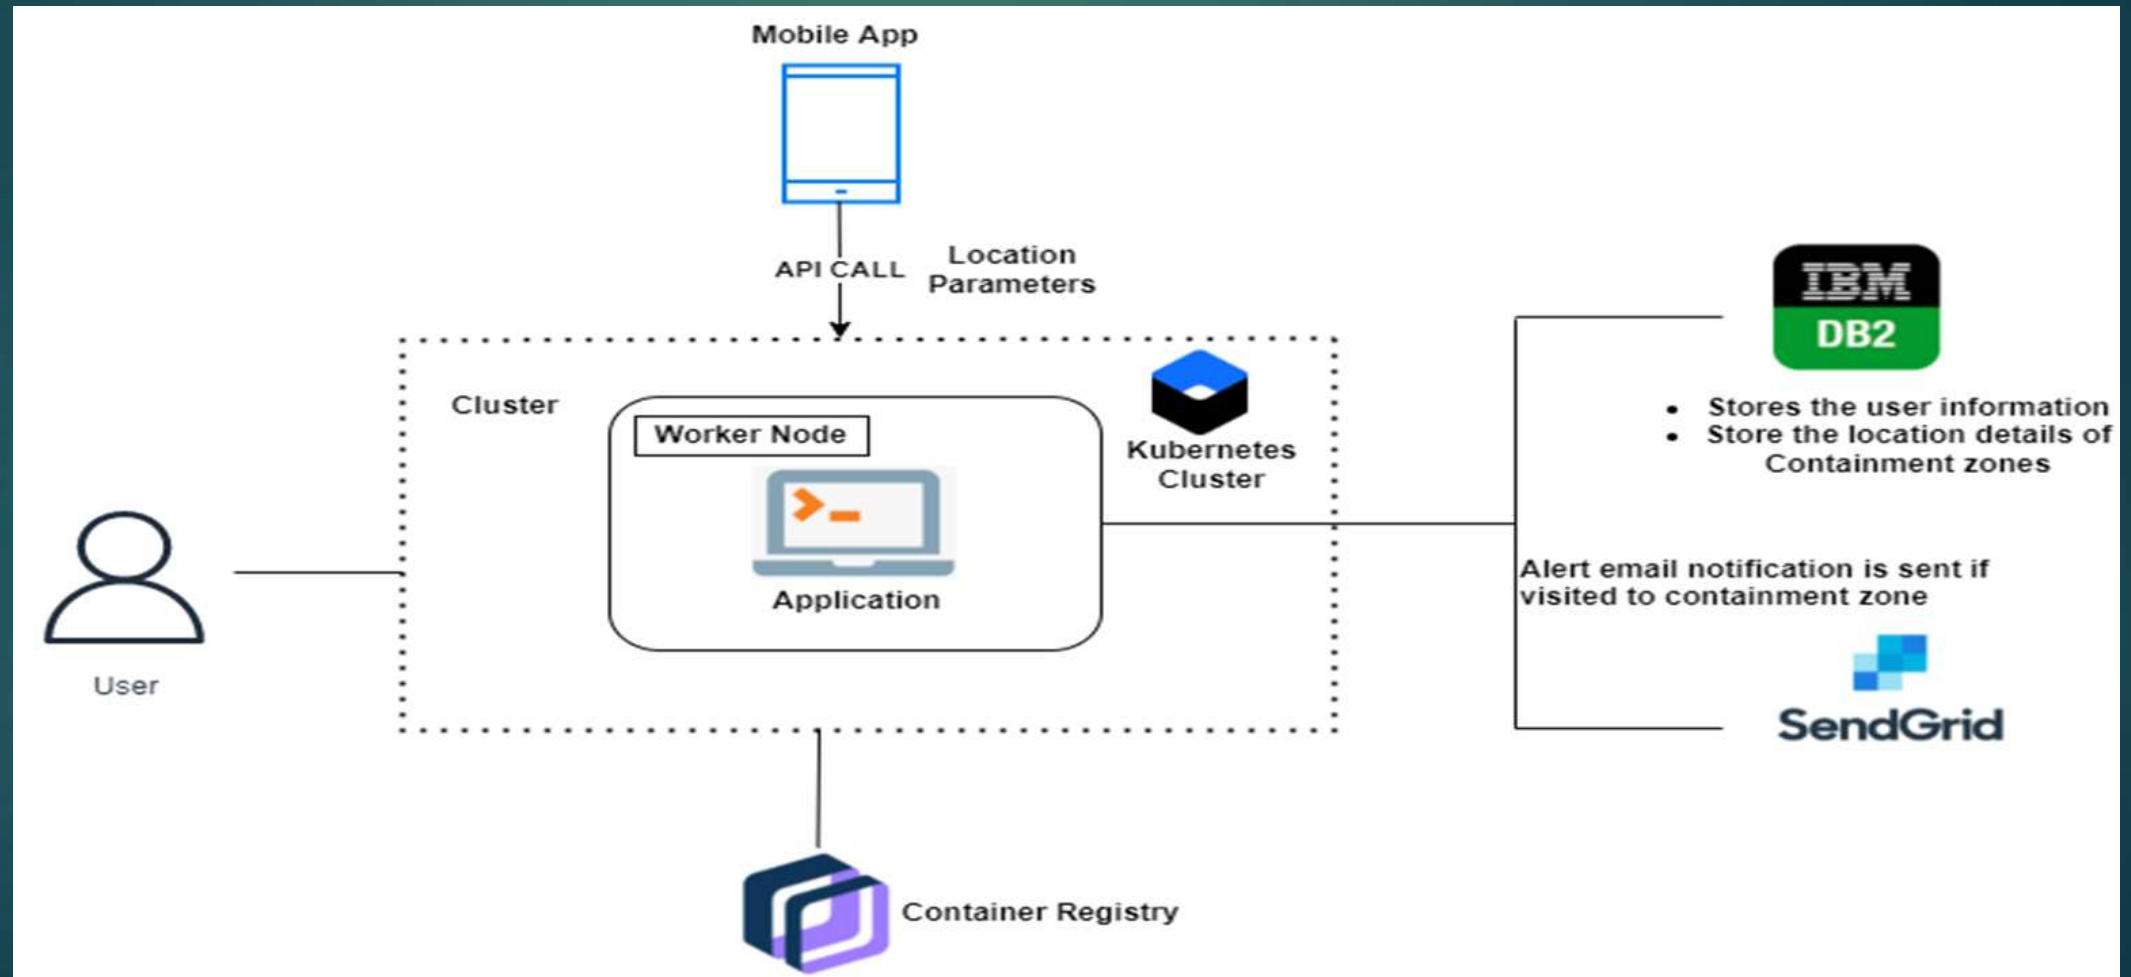

- ▶ **This application is intended to provide information about containment zones in a particular region by alerting people, through continuous monitoring of an individual's location. Key benefits of the application are monitoring people's activity and alerting them to their safety movements.**

SOLUTION REQUIREMENT :

- ▶ **The project aims at building an application that provides information about the containment zones of a particular region by continuously monitoring an individual's location. The location of the individual must be stored in the Database. Alerts are sent using the notification service.**
